MAIL BID LIST #13

CLOSING OCT 23 1986

Several rarities can be found in this sale besides the U.S. and Canada tokens and counters mentioned at the beginning. Unlisted tokens from Chile, Guatemala, Panama and Peru are here as well. Pins and exonomia of Third Reich Germany are also listed. Rare pieces from Sardinia, the Suez Canal, a piece from German Kiauchou, an unheard of token from Diu in the former **Portuguese India**, and a WWII Australia POW camp token from Liverpool, South Wales are present. Several unlisted Transportation and Telephone tokens are here in narrative form as well as counters from early modern Europe. Several scarce trade checks from the Western U.S. can be found. Good collecting to you!

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are found unless otherwise indicated. Materials are shown as Al, Br, Cop, Ni, Ir, Zn or Pl (astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". FP means that several pieces are available and sell for fixed prices only. Grading can be only approximate in a series as varied as tokens. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind.

From time to time more than one specimen of a lot is submitted on consignment. This happens with less than 1% of the lots, and mainly with items selling under \$10. Rather than list each such item, I will offer the other specimen at the winning bid price if it is the same grade and the second bid is within 15% of the top. If the grade is lower, the price will be adjusted. You are under no obligation to purchase in such a case. Comments on my listings and methods of operation are always welcome.

## TOKENS FROM THE NORTH AMERICAN FRONTIERS

1. Thurnauer & Zinn, Importers of Baskets Toys & Fancy Goods, San Francisco; Comp. S. Marke (liberty head) (K#2552, also #Sca-10) gilt brass 27mm. A rare, if not unique Unc with spot on obv., small stain at bottom of rev. (\$200)

In addition to resembling U.S. gold coins some counters had a common reverse showing a miner at work. One of these depicts Britain's Queen Victoria. The Jenny Lind counter was probably distributed throughout the U.S. in 1850 when the Swedish singer made her big tour. She is closely identified with San Francisco being one of the few women to visit the city in a day when the only others were saloon girls. Three San Francisco theatres were built in her name between 1850-51, all of which burned down. (Numbers given below are from Fuld and Rulau.)

2. (Liberty Head) 1849, California (a miner) 1849 (#Cal-1) Br 22 VF+ (\$15)

3. (same, die varieties) (#Cal-2) VG+ with small digs on obv. (\$8)  
4. (same, die vars.) (#Cal-4) EF, but this var. is not well-struck (\$15)

5. Similar to #2,3,4, but the obv is **Victoria Regina 1849 (Q.V. head)** and the reverse is the miner as above. The borders have beads, edge reeded. On the truncation of Victoria's neck are the tiny letters **HBM** probably for "Heaton's (Mint), Birmingham (England)". So far not listed. Brz 22mm EF (\$40)

By the 1870's the American Indians of the east and Midwest had been resettled voluntarily or forcibly on reservations. Contracts were let by the federal government for entrepreneurs to sell goods to the tribes. Several traders issued their own tokens which are rare.

11. Dunlap & Florer Osage Traders, Good For One Dollar In Goods; (U.S. patriotic scene) Br 22 VB+ (MB\$80) (\$150-75)

North of the border at Hudson Bay the medium of exchange was in cured beaver or other animal skins. The Hudson Bay Company issued several tokens with this denomination. Charlton states that the HB EM 1 NB stands for Hudson Bay Company, East Main District, 1 Made Beaver. The NB was a die sinker's error for MB. The East Main District was near James Bay in Quebec.

12. HB EM 1/8 NB; (arms of Hudson Bay Co.) Br 20 abt Unc lustrous (MB\$75) \$150+

15. Good For Ten Dollars In Trade, 10 00 A.R.R.C., Br 31 VF+ (MB\$55)

Throughout the west and in several latin american countries saloons provided a town's main social activity. In foreign countries such saloons were usually run by Americans. By 1919-20 saloons were forbidden by the Prohibition Act. Thereafter no token would have the word in its legend.

16. Martinez CA (K#17), The Palace Saloon, M. Caldaralla, Phone Main 13, G/F 5c 1/Tr Br 21 F (MB\$25) \$35-40

## BOOK LIST

With this sale I have obtained as many works on world tokens as I can. Most are in their native languages so that with every work in a foreign language I have enclosed an English Glossary, that is a list of key words and their translations so that collectors can make maximum use of the work without a buying a dictionary. Books which I have had on sale previously now have such aids. Many lots in this sale are listed in one or more of these books. Please order books when you bid. They will be shipped with your winning lots, or in advance if you are an established customer. U.S. Postage is included in the prices, but overseas shipping may require more. Some items are in limited quantity, so there will be an element of first come, first served.

FIRST CLASS

The Exonumia of Gold Rush California were gambling counters. In the years immediately after the gold strike at Coloma most trading was done with silver or gold coins. Small change like cents and small silver were simply thrown away. Gambling was the chief pastime in San Francisco and the mining camps and counters were developed which looked like their \$5, \$10 and \$20 gold counterparts. Thurnauer and Zinn were German partners who specialized in novelty items and had their counters made back home in Nurnberg. They began business about eight years after the gold rush. Their counters bore their names and type of business as did several other merchants of the time. (See Lot #1.)
